SUMMARY

I am a **Backend Developer** with over 2 years of experience in **PHP and Node.js**, specializing in Laravel and CodeIgniter (PHP's Frameworks). Recently, I've added Express.js and MongoDB to my skill set, and I am learning React.js for full-stack development. I seek to leverage my technical expertise and problem-solving abilities in a progressive company that values innovation and continuous learning, aiming to create scalable, efficient web applications that drive business growth.

WORK EXPERIENCE

Designoweb Technologies Pvt Ltd, Noida   March 2022 - Present
Backend Developer (SDE2)

SKILLS

Dev Skills: PHP, Laravel, CodeIgniter, MySQL, JavaScript, jQuery, NodeJs, ExpressJs, MongoDB
Add Skills: BootStrap CSS, Tailwind CSS, CSS 3.0, Learning ReactJs
DevOps Skills: AWS, cPanel Hosting and Management

RECENT PROJECTS

Metaval (Laravel)   E-commerce website
Developed metaval.com, an e-commerce platform for the procurement of industrial supplies across multiple regions around the world. Included an admin panel for managing product categories, subcategories, logos, banners, and other content dynamically for different regions.

Upcycled Medical (MERN)   Web application
Developed and maintained a web application for ordering medical equipment and medicines, improving user experience and streamlining the procurement process. Included an admin portal for managing all the bookings and orders and other aspects of the platform.

Coyoacan Transport (CodeIgniter)   Web application, User application, Driver application
Created an end-to-end transport management system featuring user and driver apps for bookings, a partner panel for regional operations, and an admin dashboard for comprehensive management, including partner and driver assignments, booking oversight, location tracking, and driver communication.

Mindful Application (Laravel)   Web application
Mindful Application offers a user-friendly platform for individuals managing depression. Users can track progress through assessments and access educational resources. The admin panel facilitates efficient management of patients, counselors, and institutions, ensuring smooth interaction and hierarchy.

Hollywood Hair App and CRM (MERN)   Web application, Mobile application
A mobile app and website for booking salon services, paired with a CRM for managing bookings and other functionalities efficiently.

EDUCATION

2023	Master of Computer Applications	Bareilly, AKTU
2020	Bachelor of Science (PCM)	Bareilly, MJPRU
